It removes all print spool servers and 99.9% of WAN print traffic, improves performance, adds redundancy, and minimizes administration and waste with features like Support Portal, End User Portal, Accounting and Secure Follow Print.

Clarice Technologies Pvt Ltd

India | Software VC Funded: No

Clarice Technologies provides product development services globally with a super specialization in User-Centered Design and cutting-edge UI technologies. We have designed & developed exemplary user experiences for 100+ products with a healthy mix of enterprise and consumer products; for start-ups as well as large Fortune 500 enterprises.

Continuuity

USA | Big Data/Storage VC Funded: Yes

Continuuity makes it easy for any Java developer to build, deploy, scale and manage Apache Hadoop and HBase applications in the cloud or on-premise. Continuuity Reactor, its flagship product, is the industry's first scale-out application server and development suite for Hadoop.

Course Hero, Inc.

USA | Internet/Online (ISP, B2B, B2C, etc.)

VC Funded: Yes

Course Hero is a digital platform that provides students with a suite of comprehensive educational resources, including crowd-sourced study documents, expert tutors, customizable flashcards and online courses. Whether mastering core subjects or exploring new skills, Course Hero empowers students to learn more effectively and succeed, both in and out of the classroom.

D-ORBIT

Italy | Other VC Funded: Yes

D-Orbit develops propulsive devices to be installed on satellites before launch and able to decommission them at the end-of-life in a quick, safe and controlled manner. With D-Orbit on-board, satellites owners are compliant with current and future regulations, increase the operating life of their satellites and avoid costs deriving from collisions with other spacecrafts or assets on Earth. 2012: demonstrator tested on ground; 2013: core technology qualified for launch and validation in orbit.

CodeSealer

Denmark | Software

VC Funded: Yes

CodeSealer enables online businesses to add an entirely new level of security "protecting themselves and their end-users against cybercrime. The solutions are unique because they create a secure ring that protects end-to-end: from server to browser with no end-user installation required. Upon deployment, the solutions enable 100 percent coverage while remaining completely invisible to the end-user.

Couchbase

USA | Software VC Funded: Yes

Couchbase is a leading provider of NoSQL database technology and the company behind the Couchbase open source project. Couchbase Server is a NoSQL document-oriented database with production deployments at AOL, Cisco, Concur, LinkedIn, Orbitz, Salesforce.com, and Shuffle Master and hundreds of other companies. It is particularly well suited for web and mobile applications, providing easy scalability, consistent high performance, and 24x365 availability.

Creativesystems

Portugal | Software

VC Funded: No

Pioneer in the implementation of RFID technology, Creativesystems develops and implements advanced and integrated solutions for automatic identification and traceability, with particular application in the Fashion Apparel market. Established in 2002, the company is present directly in Portugal, Germany, Brazil and Dubai, and has projects with the world leaders in the Fashion Apparel retail.

DELFMEMS

France | Hadware VC Funded: Yes

DelfMEMS provides the only RF MEMS switches for Mobile handsets. The RF MEMS technology has been identified as the new generation technology which will respond to the high level standards for LTE Advanced architectures. The market for switches is more than \$1 billion in 2018. With its unique and patented switch design, DelfMEMS has overcome the reliability issue of its competitors.

Digitata Limited

Mauritius | Telecommunications

VC Funded: No

Digitata is a privately-held multinational technology company with a strong mobile telecommunication and revenue management background. Digitata invented the Dynamic Tariffing System, enabling mobile operators to expand their customer base and ensure profitable revenues, while bringing affordable mobile telephony to a wider population, previously excluded by price.

Ductor Corp.

Finland | Clean Tech

VC Funded: Yes

Ductor has developed proprietary/patented technology to produce ammonia and phosphates 100% biologically from recycled materials (e.g. food waste, animal by-products). The first commercial application area for Ductor's technology will be biogas production.

DYXnet

Hong Kong | Telecommunications

VC Funded: No

DYXnet is Greater China's leading ICT service provider offering MPLS VPN, data centre/cloud and contact centre outsourcing solutions in Asia Pacific region. DYXnet serves 700 cities in Mainland China, Hong Kong, Taiwan, Singapore and Vietnam, including more than 7,600 MPLS VPN clients' sites, and hosts more than 7,800 clients' servers. It was the first batch ICT service providers in Greater China to obtain ISO 27001:2005, ISO 20000-1:2011 and ISO 9001:2008 international certifications.

Eco Consumer Services

Singapore | Clean Tech

VC Funded: No

Eco empowers consumer opinion. Eco takes consumer opinions straight to the management of companies that want to listen and learn from their customers and reward them for their contribution. Eco listens to consumers whether they are talking about your company on social and online platforms or whether they are trying to talk to you through designated feedback channels (mobile feedback, call center, email, etc).

Envision Scientific Private Limited

India | Medical Devices

VC Funded: No

Envision Scientific is a company developing Interventional cardiology devices for treatment of Coronary artery disease. It has developed novel polymer free Drug eluting stents and Drug delivery technology based on Nanotechnology principles. The company is privately held with its R&D Unit and Manufacturing Center in Surat. It has 9 Patents for its developed technology in US & EU.

Extole

USA | Software

VC Funded: Yes

Extole enables brands to acquire new, high value customers at scale with its referral marketing platform. With Extole's simple, turnkey solution, marketers can create a complete, efficient, and reliable acquisition channel by encouraging their customers to refer new customers.

FINESSE

UAE | Banking/M&A

VC Funded: No

Finesse brings together advanced technology, robust infrastructure, a large pool of talent and a proven Global Delivery Model to provide a wide range of IT services to their clients cost-effectively and seamlessly. Finesse consultants possess exceptional functional, operational, and technical knowledge of the BFSI, Education & Healthcare domain and the leading products / solutions currently used by global organizations.

gen-E

USA | Software

VC Funded: Yes
